

Omega 3 & 6 Plus 9 Oil

ACTIVE INGREDIENTS: Each 1g contains:
Omega-3 fatty acids (Linolenic Acid) 225 mg
Omega-6 fatty acids (Linoleic Acid) 210 mg
Omega-9 fatty acids (Oleic Acid) 480 mg
dl-alpha-tocopheryl acetate (Vitamin E) 1 mg

DESCRIPTION: **Omega 3 & 6 Plus 9** is an essential fatty acid (EFA) dietary supplement that provides the appropriate ratio of omega 3, 6 and 9 necessary to promote a healthy coat and skin. A deficiency of EFA is a frequent cause of lustreless coat.

PACK SIZE: 250mL and 1L pump pack packaged in 100% UV resistant bottles.

DIRECTIONS FOR USE: 1g per 7kg bodyweight per day (1g = 1.5mL / 1 pump), or as directed by your veterinarian, to be administered orally.

SPECIAL FEATURES: Omega 3 and omega 6 are polyunsaturated fats. Omega 9 is a monounsaturated fat. These types of fats are commonly known as “good fats”. It is essential to add omega oils to your pet's diet because your pet is unable to produce them on its own. Many diets that contain omega oils however, contain high levels of omega 6 but not enough omega 3. Most Omega supplements contain Omega 3 (Linolenic Acid) and Omega 6 (Linoleic Acid) but not Omega 9 (Oleic Acid). **Omega 3 & 6 Plus 9** contains all three.

Why does your pet need omega 3, 6 and 9?

If there is too much omega 6 in the diet, it will suppress the absorption of omega 3. Omega 9 oils, however, will dilute the omega 6, and thereby limit the effects of excessive inflammatory responses whilst restoring the ratio of omega 3 to omega 6. You need **all 3** omega oils to be effective.

Omega 3 & 6 plus 9 = Complete Omega Absorption.

What does each Omega oil do?

* **Omega 3** (Linolenic Acid) plays a vital role in the formation of cell walls and assists with dry skin.

* **Omega 6** (Linoleic Acid) helps prevent a dry and flaky coat by reducing the loss of moisture from the cells.

* **Omega 9** (Oleic Acid) helps restore the correct balance of omega 3 and omega 6.

Omega 3 & 6 Plus 9 also contains Vitamin E, an anti-oxidant, which helps the EFAs from forming disease causing free radicals.

Omega 3 & 6 Plus 9 is made completely from vegetable sources and contains no animal by-products.

As EFAs are easily destroyed, particularly by light, **Omega 3 & 6 Plus 9** is packed in a 100% UV resistant bottle.

Omega 3 & 6 Plus 9 is Australian owned and made.

STORAGE: Protect from light. Store in a dry place. Store below 25°C (air conditioning).

DISPOSAL: Dispose of empty containers by wrapping with paper and putting in the garbage.
