

Dermatopic – Wound & Ear Cleanser

**ACTIVE INGREDIENTS:**

Each mL contains Malic acid 22.5mg
Benzoic acid 1.5mg
Salicylic acid 0.37mg
Propylene glycol 415 mg

DESCRIPTION:

Dermatopic Wound & Ear Cleanser aids in the removal of dead or dying tissue (also known as necrotic tissue), coagulum and debris from wounds, cuts and abrasions in horses, dogs and cats. In conjunction with the skin cleansing actions of the active ingredients, **Dermatopic Wound & Ear Cleanser** also promotes healthy tissue renewal.

Dermatopic Wound & Ear Cleanser is also recommended for the removal of accumulated wax deposits and for use as an adjunct in the treatment of *Otitis Externa*.

PACK SIZE:

125mL - Squeeze pack with nozzle applicator

DIRECTIONS FOR USE:**Wounds, Cuts & Abrasions**

Liberaly apply **Dermatopic Wound & Ear Cleanser** to clean the wound and the surrounding skin. Repeat the application 2 to 3 times daily, or as directed by a veterinarian.

Ears

To ensure that there are no other ear problems, such as the presence of grass seeds, it is important to obtain the correct diagnosis before commencing use with **Dermatopic Wound & Ear Cleanser**.

Routine Ear Cleaning

Gently squirt **Dermatopic Wound & Ear Cleanser** liberally into the ear canal and massage the base of the ear to loosen any wax deposits.

Allow the animal to shake their head to help dislodge any wax from the walls of the ear that may have built up. This shaking of the head will also help any excess solution to escape.

Wipe the outer area of the ear with cotton wool afterwards to remove any excess solution. Repeat as often as required.

Do not use cotton buds to clean the ear at any time.

Otitis Externa

Follow the directions as for *Routine Ear Cleaning*, repeating the procedure 1-3 times daily for several days, or as directed by a veterinarian.

It is important to note that **Dermatopic Wound & Ear Cleanser** will not treat *Otitis Externa*, but is used in addition to aural medications that are prescribed by a veterinarian. By using **Dermatopic Wound & Ear Cleanser** in conjunction with such prescribed medications, the incidence of *Otitis Externa* will be greatly reduced.

PRECAUTIONS:	Dermatopic Wound & Ear Cleanser is a topical treatment only. Avoid contact with eyes.
HEALTHY EAR PROGRAM:	To ensure that the ears are kept in a healthy condition, it is necessary to follow a regular ear maintenance program that includes the following steps: <ul style="list-style-type: none">• Avoid the use of any sharp or pointed objects, including cotton buds, which may damage the ear tissues or ear drum.• Keep the areas surrounding the ear clear from debris, such as burs or grass seeds, which can enter the ear and become lodged in the ear canal.• For dogs with drop ears, such as beagles, keep the outer ear canal clear from hair. Gently pluck any excess hair from this area, and if necessary, clip hair from the inside surface of the ear flap.• For dogs that regularly swim, follow the <i>Routine Ear Cleaning</i> directions after each swim, ensuring that the ear surface and canal are allowed to dry thoroughly to avoid an environment in the ear that allows bacteria to grow.• Routinely clean the ear with Dermatopic Wound & Ear Cleanser to encourage healthy ear canal and tissues.
SPECIAL FEATURES:	Dermatopic Wound & Ear Cleanser is specifically formulated with organic acids to cleanse wounds and ears without irritation. <u>What does each organic acid do?</u> <ul style="list-style-type: none">• Malic Acid Reduces pH and, as a result, inhibits the growth of some bacteria and yeasts. Malic Acid is also a natural preservative.• Benzoic Acid Reduces pH. Benzoic Acid has antifungal properties and inhibits the growth of yeast and some bacteria. It is one of the oldest and most widely used preservatives.• Salicylic Acid Contains antifungal properties. Salicylic Acid also assists the skin cells to slough off easily, thus preventing pores from clogging up. Dermatopic Wound & Ear Cleanser is gentle enough to be used on puppies and kittens. Dermatopic Wound & Ear Cleanser is Australian owned and made.
STORAGE	Store below 30°C (room temperature).
DISPOSAL	Dispose of empty container by wrapping in paper and putting in the garbage.
